Dear Sir:

The U.S. Patent and Trademark Office is requested to provide a Corrected Official Filing Receipt for the above-referenced U.S. patent application.

The following correction(s) should be made to the Official Filing Receipt: the "Domestic Priority data as claimed by applicant" should list the filing date of the international application as "10/15/2004". The OFR incorrectly provides the year as 2003.

The correct year is shown on the Application Data Sheet that was filed with the application. Further support for the correction may be found on the face page of the international application publication (WO 05/037321; see field/line (22)), a copy of which is enclosed.

A marked-up copy of the OFR, showing the requested correction, is being provided herewith.

B... DAYS

(57) Abstract: An oncogene therapeutic drug which comprises a combination of a virus for an immunological treatment to be administered for inducing a CTL reaction within the living body with a carrier cell having been infected with an oncolytic virus before administration so as to treat a tumor cell with the virus within the living body. As the carrier cell, use can be made of, for example, an A549 cell. As the virus for an immunological treatment, use can be made of, for example, a non-proliferative adenovirus having been inactivated by UV irradiation. As the oncolytic virus, use can be made of, for example, a proliferative adenovirus having a tumor-specific promoter.
